- Image creation and editing (Adobe Illustrator and Photoshop).
- Development of interactive UX/UI interfaces and prototypes (Adobe XD, Figma).
- WEB and mobile development (PHP, JS, HTML, Python, Next.js, Flutter, Java, Android Studio, WordPress, Vercel).
- Project management (Trello, JIRA).
- Continuous integration (GitHub and GitLab).
- English: Intermediate level (B1).

PROFILE

Full-Stack developer with 2 years of experience in web and mobile application development, specialized in frontend with React and TypeScript, with knowledge in Angular and Laravel. In the backend, I have worked with PHP and JavaScript, always in constant learning and updating to bring high value in each line of code and adapt to the needs of the project. I have experience in creating optimized interfaces, ensuring the technical feasibility of UI/UX designs, developing reusable components and optimizing performance. In addition, I have skills in integrating APIs and services provided by AWS and Truora, using Git for version control, and implementing scalable and efficient solutions. Thanks to my focus on problem solving, attention to detail and teamwork, I have provided top-notch technical support, ensuring an excellent end-user experience. I am characterized by my adaptability to change, leadership and my commitment to innovation in every project.

EXPERIENCE

Symphony Technologies S.A.S Nov 2023 - Jan 2025
Junior WEB Developer

- Database administration with Firebase, MySQL and PostgreSQL for large data traffic.
- Web application development with Angular, Node.js, PHP Laravel, React.js and TypeScript.
- Deployment and maintenance of web applications using AWS Amplify and S3 cloud storage.
- Implementation of APIs, including integration of AWS Rekognition in image recognition and Truora TruChecks in background checks.

Medifolios Sep 2022 - Dec 2022
